

Dear Parents,

I will be using a service called **Class Messenger** this year to help us all communicate about class activities. This might include general announcements, homework reminders and even some interactive things like launching surveys and meeting requests. It is a very private communication tool. Only the teacher in a Class is allowed to communicate with the parents and students. Parents and students can communicate directly with the Teacher...but cannot 'post' things for other members of the Class to read.

If you would like your child to participate, I will need your consent for the students to provide some personal information directly to the service. This includes:

- their name
- an email address

Your child will only be able to use this service to communicate with me directly about classroom activities. The service does include some sharing tools that enable users to share content with others on social media networks, as described in the **Class Messenger** privacy policy, but the **Class Messenger** service itself is NOT a 'chatroom' or a social media tool where people can post things for others to see.

Your child will need a *Class Code* to register for the service and to join our class on either the **Class Messenger** website or by using the **Class Messenger** mobile apps. I will not issue that *Class Code* until I have your consent on file. Once you give consent, if you have any questions about information collected from your child through the service, or want to revoke consent, please contact me.

If you would like to learn more about the **Class Messenger** service and their policies you can go to:

Website: <http://www.classmessenger.com>

Privacy Policy: <http://www.classmessenger.com/privacypolicy/>

Terms of Service: <http://www.classmessenger.com/termsofservice/>

In order to give your consent, please fill out the information below and return it to me:

Student Name: _____ Parent Signature: _____

Parent Printed Name: _____ Date: _____
